

**WALCHAND INSTITUTE OF TECHNOLOGY,
SOLAPUR
INSTITUTIONAL DEVELOPMENT PLAN
(2023-2028)**

Institutional Basic Information -

Name and address of The institution :	Walchand Institute of Technology, P. B. No. 634, Walchand Hirachand Marg, Ashok Chowk, Solapur – 413 006 (MH)
Year of establishment :	1983
AICTE Permanent Id :	1- 3869061
Type of Institution :	Self Financing Religious (Jain) Minority Institute
Status of Institution :	Autonomous Institution Status by UGC and Affiliated to PAH Solapur University, Solapur

Walchand Institute of Technology, Solapur is named after one of pioneer industrialist Seth Walchand Hirachand with a aim to cater the need of technological education to inculcate the proficiency in professional career of students. The institute with its continuous efforts and educational standards has achieved the excellence in technical education. The institute is progressing in line with its vision and mission to be a top most educational institution in Engineering & Technology –

Vision –

"To produce young, globally competent Graduates / Post-Graduates / Doctoral Engineers with an aptitude for leadership and research, to face the challenges for modernization and globalization courageously who will be instrumental for overall growth of the society. "

Mission –

1. To impart quality technological education in accordance with the needs of the society through various academic programs.
2. To foster disruptive learning process for innovation in education and to provide proper ambience for motivating students for creating awareness to excel in the ever expanding field of science and technology.
3. To enhance career opportunities for students through exposure to industries and research institutions.
4. To strive for excellence by encouraging independent critical thinking, creativity

and discipline.

5. To create awareness on engineering ethics and human values to instill moral, social values and loyalty, and to appreciate the right of others and respect towards society and its heritage.
6. To help the students to implement their acquired engineering knowledge for society and community development, thus enhancing a strong sense of social responsibility and accountability.
7. To reach to the community through various outreach programs to include the scientific technological spirit among all.
8. To promote and provide a framework to meet campus sustainability goals and mitigate climate change.
9. To help in nation building through a pool of dedicated, disciplined, intellectual and integrated manpower.

The Institutional Strategic Plan has been formulated for overall development of institute in line with vision and mission of the institute. Five years Institutional Development Plan has been prepared. The proposed IDP will be implemented in a systematic manner over the next five years for development of following six areas -

- Academic Excellence
- Student Development
- Research Development
- Faculty Development
- Creating Institutional Brand

Strengths of the institute

- Autonomous Institute
- Accredited with NBA
- Accredited by NAAC with A+
- Qualified and approved experienced faculty
- Recognized Research Centers
- Collaboration with various organizations for academic activities
- Well placed alumni in government and reputed private organizations
- Close interaction with industry through testing, consultancy and research
- Meritorious student input from all over Maharashtra

Short term goals

- Employability enhancement and skill development of students
- Students' participation in Hackathon and similar technical activities.

- Establishment of Examination Section for autonomous institute.
- Collaboration with industries for internship, training, consultancy, collaborated projects.
- Promote R&D activities useful to society and industry
- To increase Pre-placement offers and placement in core companies

Long term goals

- Joint industry-academia collaborations for research activities
- To encourage faculty members to file more patents and explore commercial potential.
- To Strengthen the Alumni Association through proper networking.

The Institute Development Plan is prepared for the duration of 2023-2028.

Academic and Student Centric Development:

- Being an Autonomous institute the WIT has planned to achieve the Curriculum Excellence in coming years and in line to cater the industry needs.
- Academic audit of curriculum and question papers by IITs/NITs for enhancement of its relevance and effectiveness
- Strengthening blended teaching learning mode
- Strengthening Project Based Learning
- Offering more skill based courses
- More industry collaborated projects
- Encouraging, facilitating and training students for various National Level project/Design competitions including Hackathons
- To guide students with career counseling for professional courses
- Skill up gradation of the students through various MOOC platforms, training by industry experts
- Collaborations to be established/ enhanced with industries for better employability.
- Promote Student Entrepreneurship
- Aid in teaching by adjunct faculty from industries
- Implementation and monitoring of modified student feed-back system
- Adoption of Multidisciplinary in Programme design, Curriculum in Institution.
- Encourage and facilitate students to undertake and complete various industry / academia offered courses on state of the art technology
- Offering of internship embedded degree programme and Registration on AICTE Internship Portal
- Strengthening Outcome Based Education with more matured process

- To upgrade the classrooms to digital classrooms with net connectivity
- Establishing laboratories in emerging areas in collaboration with industries
- To create awareness and assist society in various national programs and fundamental rights such as: digital India, Gender equity, Swatch Bharat Abhiyaan voters registration & awareness.
- To inculcate sense of responsibilities and respect towards society amongst youth through blood donations, yoga training sessions etc and encourage social welfare in the students.

Research and Development

Research is a soul of innovation. In line with the mission, the institute is desire to motivate the students for research in their respective field for enhancement of their career.

- To develop a heterogeneous environment for research and development
- To establish Research and Development Cell for managing and coordinating the research related database of the institution i.e. Research Information Management System (RIMS) as per the guidelines of UGC.
- To strengthen 'Knowledge Resource Centre' comprising of digital library and information, intellectual property facility, data analysis software, plagiarism check facility etc.
- Increase the number of faculty with Ph.D. qualification from 25%to 50%
- To submit research proposals to AICTE, P.A.H. Solapur University- Solapur, DST, ISRO, NGOs, industries and other funding agencies.
- To strengthen the departments recognized as research centers with latest equipment and computational facilities.
- To increase the number of research scholars in each research centre

Faculty Development

The institute recognizes the Human Resource as most important asset to achieve its vision and mission. The qualified and experienced faculties plays vital role in overall development of the students.

- Arrange at least two Faculty Development Programs per department and encourage the faculty members to attend the FDPs, Conferences and Training Programs.
- Encourage and help maximum number of faculties to register and completion of Ph. D.
- Encourage to have more quality research publications

- Promote faculty members to acquire new technological skills through collaboration with industries.
- Promoting faculty members through Career Advancement Scheme (CAS) after successful completion of Ph. D.

Creating Institutional Brand

The institute is one of the result oriented institute in Maharashtra. The students from various parts of the Maharashtra state as well as from other states give their preference for the admission to UG and PG courses of Degree Engineering. Being an Autonomous institute and accredited institute by NBA as well as NAAC, institute has a plan to create a WIT as brand in the education of Engineering & Technology and other programs.

- Introduction of skill based courses related with emerging technologies viz. AI, ML, 3D printing etc.
- Introduction of honors Degree as per the need of industry
- Improve the campus placement and boost for startups
- To provide sustainable solutions to various engineering problems with special reference to local conditions and various issues of societal development through projects and consultancy.
- To organize executive meets regularly and nourish good relationship with industrialists
- To organize tailor made programmes as per the requirement of industry.
- Establishing incubation centre
- Collaboration with foreign HEIs
- Getting AICTE Idea lab in the institute
- Strengthening the alumni connect
